9301003476 | kanha1574k@gmail.com | [LinkedIn](#) | [GitHub](#) | [Leetcode](#)

SUMMARY

Computer Science undergraduate skilled in C++, DSA, and full-stack web development with the MERN stack. Experienced in building responsive web applications and working on team-based projects, with a strong focus on problem solving, backend development, and scalable software solutions.

EDUCATION

Acropolis Institute of Technology and Research, Indore

B.Tech. in Computer Science & Engineering | 2023–2027

CGPA: 6.885/10 (up to 5th semester)

St. Jude's Higher Secondary School, Khargone

Class XII: 88% | 2022

Class X: 83% | 2020

TECHNICAL SKILLS

Languages - C++, JavaScript, PHP, SQL, HTML5, CSS3

Frontend - React.js, Tailwind CSS

Backend - Node.js, Express.js

Databases - MongoDB, MySQL

Tools - Git, GitHub, Postman

Core - Data Structures & Algorithms, OOP, DBMS

PROJECTS

DigiFIR — OCR Enabled e-FIR System with Digital Aadhaar Authentication

- Developing a full-stack e-FIR platform to streamline complaint registration and digital FIR management.
- Building the frontend using React.js and Tailwind CSS and developing the backend using Node.js and Express.js.
- Designing MongoDB-based data models and implementing secure authentication and role-based workflows for users and administrators.

Learnix — EdTech Platform

- Currently developing a full-stack EdTech platform for online learning and educational content management.
- Building responsive and reusable user interfaces using React.js and Tailwind CSS.
- Developing RESTful backend services using Node.js and Express.js with MongoDB for data management.

DevFlow AI — AI-Powered Developer Platform

- Developing a full-stack AI-powered platform designed to assist developers with project management, documentation, and development workflows.
- Building the application using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB with AI integration.
- Implementing features focused on improving developer productivity through AI-assisted workflows and centralized project management.

CERTIFICATIONS

- Database Management System — NPTEL | 2025
- JavaScript (Basic) — HackerRank | 2026
- SQL — HackerRank | 2026

ACHIEVEMENTS & ACTIVITIES

- Led a 4-member team in developing the DigiFIR e-FIR System.
- Solved 90+ problems on LeetCode using C++, strengthening algorithmic problem-solving skills.
- Participated in coding contests and problem-solving activities.
